8	Guatemala	LAC		Lower middle	IBRD
9	Bangladesh	SAR	Yes	Low	IDA
10	Pakistan	SAR		Low	Blend
11	Sri Lanka	SAR		Lower middle	IDA

Notes:

LDC: Least Developed Country are based on United Nations classification (as of July 2008)

Income Group: All economies are divided based on 2007 gross national income (GNI) per capita, calculated using the World Bank Atlas method. The groups are: low income, \$935 or less; lower middle income, \$936–3,705; upper middle income, \$3,706–11,455; and high income, \$11,456 or more.

Lending category: IDA countries are those that had a per capita income in 2007 of less than \$1,095 and lack the financial ability to borrow from IBRD.

IBRD loans are noncessional. Blend countries are eligible for IDA loans because of their low per capita incomes but are also eligible for IBRD loans because they are financially creditworthy.
